The Excelra Approach

Integrated Sample Request Workflow Management

The Purpose
To develop an organization-wide Collaborative Workflow Management System with a simplified user-interface for internal and external stakeholders.

About the Client
- **INDUSTRY**: Pharmaceutical and Biotechnology
- **LOCATION**: US
- **SECTOR**: Consumer Healthcare

The Excelra Approach
An Azure Platform was designed on a server-less architecture. The platform had a simplified interface with integrated and collaborative workflow, metadata strategy, data lineage and master data integration along with audit and compliance requirement, cross collaboration between multiple CROs and an inbuilt standardized vocabulary to align across datasets.

Collaborative Workflow Management
Excelra’s Contribution
Integrated Sample Request Workflow Management for Collaborative Workflow Process.

- Dynamic UI (Admin controls) for front-end and back-end activities.
- Creation, Tracking and Validation of single source for Metadata.
- User-friendly interface with all the data entry points in Excel format.
- Scalability, Dynamic Framework and Modular based add-ons.
- Fluidity and Departmental Integration points across the framework.
- Automation-Future RPA Free.

Excelra’s Technology Service Portfolio

**Enterprise Data Strategy**
- Metadata & Master data management
- Semantic data catalogue, Ontology mapping and Data dictionary integration
- Data unification strategy
- Automated data ingestion, Pipeline creation and Semantic integration

**Enterprise Cloud Ops**
- Cloud migration, Infrastructure set up and management (AWS & Azure)
- DevOps & DevSecOps/ MLOps & MLSecOps
- Product Ops & Service Ops
- Data lake creation and Integration support

**Enterprise Digital Transformation**
- Scientific product development
- Platform/Application development
- Process automations
- Enterprise workflow integration
- Visualisation and Dashboarding as a service
